

LESSON NAME

Intro

Prerequisites

prerequisites

20 min

filename

Episode template

Questions

- What syntax is used to make a lesson?
- How do you structure a lesson effectively for teaching?
- `questions` are at the top of a lesson and provide a starting point for what you might learn. It is usually a bulleted list.

Objectives

- Show a complete lesson page with all of the most common structures.
- ...

This is also a holdover from the carpentries-style. It could usually be left off.

The introduction should be a high level overview of what is on the page and why it is interesting.

The lines below (only in the source) will set the default highlighting language for the entire page.

Section

A section.

Discussion

Discuss the following.

- A discussion section
- Another discussion topic

Section

```
print("hello world")  
# This uses the default highlighting language
```

```
print("hello world")
```

Exercises: description

Exercise Topic-1: imperative description of exercise

Exercise text here.

✓ Solution

Solution text here

Summary

A Summary of what you learned and why it might be useful. Maybe a hint of what comes next.

- Other link

📌 Keypoints

- What the learner should take away
- point 2
- ...

This is another holdover from the carpentries style. This perhaps is better done in a “summary” section.
